

Think the Impossible !!

DC to 26 GHz - Low Noise - Ultra Small Footprint Less than one Euro*

*For orders over 5,000 pcs

With a footprint of 1.0mm x 0.5mm and broadband operation upto 26GHz, this new family of products will revolutionise your design giving you higher performance in a smaller space.

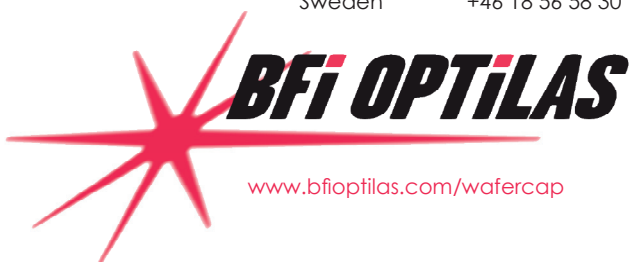

Avago's revolutionary WaferCap chip-scale packaging technology gives you the performance characteristics of a ceramic package with the size and convenience of plastic packages.
